

# LEMER

— l'expert —

L E A D & A L L O Y S

EXPERT I N T H E F I E L D

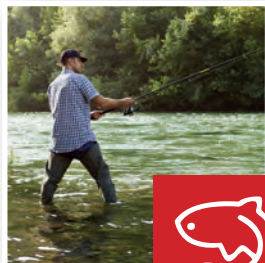

# OUR AREAS OF EXPERTISE

## FISHING & DIVING

The trusted choice for fishermen

- 2,500 product references
- For recreational and professional fishing
- Suitable for sea and river fishing
- Fishing weights & diving buckles
- Available in bulk, pouches, or dispenser boxes

## BALLASTING

A wide choice of ballast solutions

- Ballasts up to 100 tons
- From single units to large series
- Filling of your metal compartments
- Ingots, handle bags, shot pellets
- Offshore platform ballast
- Submarine and public works ballast
- A wide range of ballasting solutions

## NUCLEAR

Reliable radiation protection solutions

- Design and/or manufacturing of shielding
- From single units to large series
- From a few grams to 50 tons
- For civil, military, and medical nuclear sectors
- Research and Non-Destructive Testing (NDT)

## NAUTICAL

The specialist in high-performance keels

- Standard keels, offshore racing, super yachts, one-off designs
- Straight keel or bulb only
- Full lead or mixed cast iron/lead
- From 100 kg to over 50,000 kg
- Delivered raw, machined, or with composite finishing
- Integrated design office

## INDUSTRY & SUBSTITUTES

Custom-made industrial products

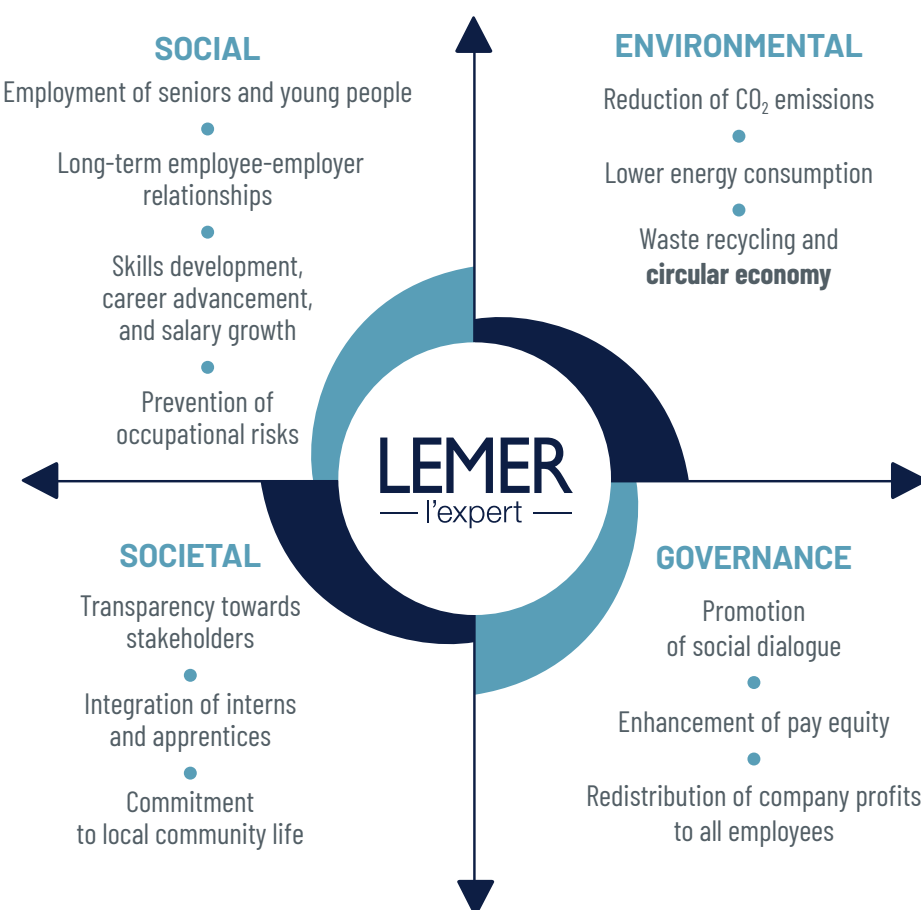

- Design and/or manufacturing of parts
- Metallic fusible cores
- Metallic fusible plugs and discs
- Sealing parts
- Parts for vacuum equipment
- All melting temperatures (< 600°C)
- Lead-antimony, bismuth, copper, calcium, zinc

# A CSR APPROACH FOR A SUSTAINABLE FUTURE

## LEAD IN THE CIRCULAR ECONOMY

### RECOVERY

Collection of used products containing lead (Lead-acid batteries, etc.)

### RECYCLING

Refining lead into ingots

### REUSE

Manufacturing new products from refined lead

# MORE THAN A CENTURY OF EXPERTISE

---

**The Lemer foundry, specialized in low-melting-point alloys, was founded in 1878 in Nantes by the Lemer family.**

Today, it is one of the last lead foundries in France, employing over 60 people across two sites in the Nantes region.

The teams uphold the values that drive the company's success: **trust, collaboration, and agile expertise.**

Thanks to its capacity for innovation and multi-generational know-how, Lemer has successfully diversified and adapted to its clients' needs.

With an annual turnover of 10 million euros, the company operates in three strategic sectors:

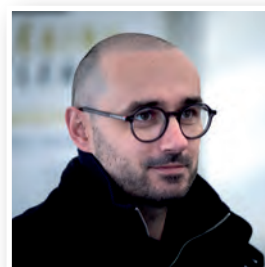

- Fishing and diving
- Nuclear and industry
- Boating and ballast

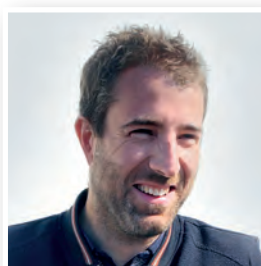

**Laurent LECOLE**  
General Manager

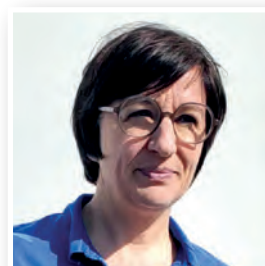

**François CHATELAIN**  
Business Manager  
Nautical & Ballasting

**Pierre MOULIN**  
Business Manager  
Nuclear & Industry

**Maxime QUEMENER**  
Head of Design  
& Development

**Caroline LAIRIE**  
Directrice CSR

# YOUR NEEDS, OUR SOLUTIONS

Technical studies and R&D approach

•  
Production of lead  
and low-melting-point alloy parts

•  
Guaranteed quality and compliance of components

•  
High-performance finishing, added value,  
and certification

•  
Customized handling and assembly

•  
Personalized packaging and secure transportation

## LEMER FOUNDRY IN NUMBERS

**60** ► employees

**€10** ► million in annual revenue

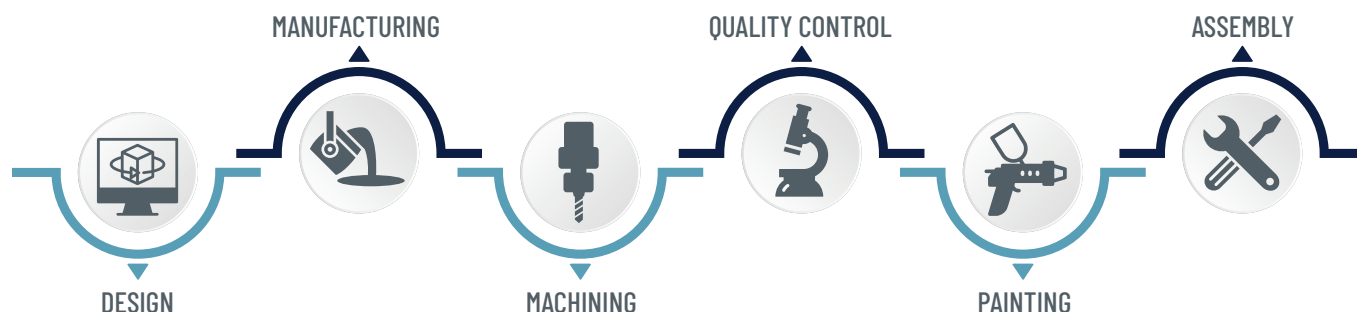

**1,000** ► tons of lead and alloys processed per year

**1,500** ► tons in stock, including 500 tons of finished products

**2** ► Production sites:  
Carquefou & Le Loroux-Bottereau

Parts ranging from ► **1g to 50 tons**

## OUR VALUE CHAIN

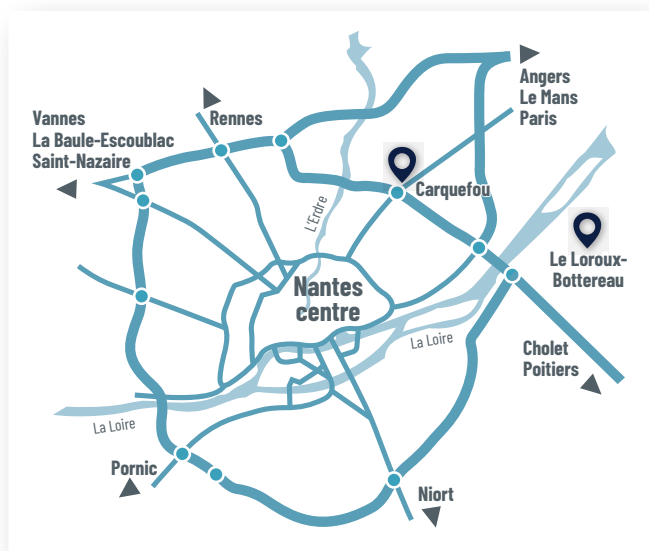

## OUR PARTNERS

MADE IN FRANCE

**LEAD HAS EXTRAORDINARY PROPERTIES AND SHOULD BE HANDLED BY AN EXPERT:**

**Lemer, a classified facility for environmental protection operating under prefectural authorization (ICPE).**
